**Surf Survival Pre-Test**

*As a learning tool, answer the questions the best that you can, make best guesses where you have no idea! (We will answer all of these questions during the topic).*

1. How often do you go to the beach?

2. What percentage of beaches in Australia have flags and lifeguards?

3. When you go to the beach how often do you swim between the flags?

4. What's the difference between wind and swell waves and why?

5. What is the most dangerous type of breaking waves and why?

6. What is a rip current and why do they form?

7. What is the main cause of rescues that are performed every summer by lifeguards?

8. Why are rock platforms dangerous?

9. What is the safest way to body surf?

10. What do dark gaps in the water indicate?
